

**CITY OF LONGMONT
PUBLIC IMPROVEMENT
DESIGN STANDARDS AND CONSTRUCTION SPECIFICATIONS**

TABLE OF CONTENTS

SECTION 100 – GENERAL REQUIREMENTS AND SCOPE

100.00	Purpose	General – 1
101.00	Abbreviations and Definitions.....	General – 3
102.00	Manufacturer’s Certificates and Recommendations	General – 9
103.00	General Qualifications.....	General – 9
104.00	Construction Plans	General – 12
105.00	Project Information Reports	General – 13
106.00	Inspection.....	General – 14
107.00	General Information	General – 17
108.00	Approved Materials List.....	General – 27
109.00	Final Cleanup	General – 29
110.00	Interruption of Water, Wastewater and Storm Sewer	General – 30
111.00	Trench Excavation	General – 31
112.00	Trench Backfill.....	General – 34
113.00	Stormwater Qualifications Requirements.....	General – 38
114.00	Enforcement.....	General - 42

SECTION 100 – GENERAL REQUIREMENTS INDEX OF DETAILS

110-01	Trench Detail
100-02	Typical Asphalt & Concrete Trench Patch
100-03	Concrete Pavement Patch
100-04	Limits of Asphalt Removal Trench/Edge of Pavement and H.B.P. Patchback
100-05	Pipe Crossing Support Pad Detail
100-06	Cut-Off Wall
100-07	Field Installation - Polyethylene AWWA C 105 Method “A”
100-08	Open Field, Utility Cable Burial Detail
100-09	Silt Fence Erosion Barrier
100-10	Straw Bale Erosion Barrier
100-11	Construction Staging Pad

SECTION 200 – STREET IMPROVEMENTS

200.00	Minimum Design Criteria.....	Streets – 1
201.00	Right of Ways and Street Cross-Sections.....	Streets – 2
202.00	Horizontal Alignment.....	Streets – 3
203.00	Vertical Alignment.....	Streets – 4
204.00	Reserved.....	Streets – 6
205.00	Intersections.....	Streets – 6
206.00	Cul-De-Sacs.....	Streets – 11
207.00	Structural Cross-Section.....	Streets – 12
208.00	General – Construction.....	Streets – 17
209.00	Clearing and Grubbing.....	Streets – 18
210.00	Removal of Structures and Obstructions.....	Streets – 19
211.00	Excavations and Embankment.....	Streets – 19
212.00	Aggregate Base Course.....	Streets – 24
213.00	Plant Mixed Bituminous Pavement.....	Streets – 25
214.00	Portland Cement Concrete Pavement.....	Streets – 30
215.00	Street Restoration (Patching and Matching Existing).....	Streets – 33
216.00	Sidewalks, Curb Ramps, Curb and Gutter.....	Streets – 34
217.00	Signs Construction and Installation.....	Streets - 36

SECTION 200 – STREET IMPROVEMENTS INDEX OF DETAILS

200-01	Typical Street Section
200-01A	Typical Street Section
200-01B	Street Intersection Crossspan Approach Detail
200-01C	Street Intersection Approach Detail
200-02	Intersection Right-of-Way
200-03	Concrete Cross Pan
200-04	Detached Sidewalk Detail
200-05	Bikeway Detail
200-06	Vertical Curbwalk Detail
200-07	Vertical Curb and Gutter Type “B”
200-08A	Concrete Driveway (Type A) With Attached Walk
200-08B	Concrete Driveway (Type B) With Attached Walk
200-09	Concrete Driveway Offset Walk (Monolithic Pour)
200-10	Mountable Curbwalk
200-11	Curb Ramp Detail – Radial Curbwalk
200-12	Curb Ramp Detail – Mid-Block, Single
200-13	Curb Ramp Detail – Detached Sidewalk
200-14A	Curb Ramp Transition Detail for Detached Walk and/or Bikepath (Alt. A)
200-14B	Curb Ramp Transition Detail for Detached Walk and/or Bikepath (Alt. B)
200-15	Curb Ramp Detectable Warning and Construction Joint Detail
200-16	Traffic Circle Detail
200-16A	Mid-Block Neckdown with Detached Walk
200-16B	Speed Tables or Speed Humps with Crosswalk
200-17	Chase Drain Detail
200-18	Type R (Modified) (Chase)
200-19	Staking Detail, Mountable Curb Inlet
200-20	Survey Monument Box
200-21	Pedestrian Handrail Detail
200-22	Conduit Trench
200-23	Standard Pipe Underdrain (Raised Irrigated Medians)
200-24	Rotomill Detail (Final Overlay)
200-25	Core Drilled Pothole Patching Detail

SECTION 300 – STORM DRAINAGE IMPROVEMENTS

300.00 Design Criteria..... Storm Drainage - 1
301.00 Storm Drainage Improvements Storm Drainage - 2

SECTION 300 - STORM DRAINAGE IMPROVEMENTS IINDEX OF DETAILS

300-01 Typical Pipe Bedding
300-02 Standard Manhole
300-03 Standard Manhole Cover
300-04 Type "R" Inlet Access Location
300-05 Manhole Cover Location
300-6A Standard Flared End Section
300-6B Elliptical Flared End Section
300-6C Flared End Section Trash Rack (Circular Pipe)
300-6D Trash Rack Mounting (Circular Flared End Section)
300-6E Flared End Section Trash Rack (Elliptical Pipe)
300-6F Trash Rack Mounting (Elliptical Flared End Section)
300-07 Silt Fence Erosion Barrier
300-08 Straw Bale Erosion Barrier
300-09 Construction Staging Pad

SECTION 400 – WASTEWATER COLLECTION

400.00	Minimum Design Criteria.....	Wastewater – 1
410.00	Materials.....	Wastewater – 4
411.00	Polyvinyl Chloride Pipe (P.V.C.).....	Wastewater – 5
412.00	Ductile Iron Pipe.....	Wastewater – 6
413.00	Vitrified Clay Pipe.....	Wastewater – 6
414.00	Asbestos Cement Pipe (A.C.P.).....	Wastewater – 6
415.00	Fittings for Sewer Pipe.....	Wastewater – 7
416.00	Clean-Outs in Service Lines.....	Wastewater – 7
417.00	Underdrains.....	Wastewater – 7
418.00	Manholes.....	Wastewater – 7
419.00	Concrete and Reinforcing Steel.....	Wastewater – 7
420.00	Plugs or Stoppers.....	Wastewater – 8
430.00	Construction Information.....	Wastewater – 8
432.00	Connection to the Existing System.....	Wastewater – 8
433.00	Tapping.....	Wastewater – 8
434.00	General Pipe Installation.....	Wastewater – 9
435.00	Service Lines.....	Wastewater – 9
438.00	Setting of Manholes and Fittings.....	Wastewater – 10
439.00	Testing.....	Wastewater – 12
440.00	Utility Marker Signs.....	Wastewater – 14
441.00	Lift Stations – General.....	Wastewater – 14
442.00	Lift Stations – Products.....	Wastewater – 15
443.00	Lift Stations – Execution.....	Wastewater – 32

SECTION 400 - WASTEWATER COLLECTION INDEX OF DETAILS

400-01	Standard Manhole Detail
400-02	Manhole Raising Detail
400-03	Sewer Service Connection
400-04	Manhole Abandonment Detail
400-05	Inside Drop Manhole Detail
400-06	Sanitary Sewer Service Line Installation

SECTION 500 – WATER DISTRIBUTION

500.00	Minimum Design Criteria.....	Water – 1
510.00	Materials.....	Water – 4
511.00	Ductile Iron Pipe.....	Water – 4
512.00	Polyvinyl Chloride Pipe.....	Water – 6
513.00	Asbestos Cement Pipe.....	Water – 7
514.00	Cast and Ductile Iron Water Works Fittings.....	Water – 7
515.00	Valves.....	Water – 8
516.00	Valve Boxes.....	Water – 9
517.00	Curb Stop Boxes.....	Water – 9
518.00	Fire Hydrants.....	Water - 9
520.00	General Information.....	Water – 10
521.00	Tapping.....	Water – 11
522.00	General Pipe Installation.....	Water – 12
523.00	Restraint.....	Water – 13
524.00	Service Lines.....	Water – 14
525.00	Setting of Valves and Fittings.....	Water – 15
526.00	Setting of Valve Boxes.....	Water – 16
527.00	Setting Hydrants.....	Water – 16
528.00	Disinfection and Flushing.....	Water – 17
529.00	Hydrostatic Tests.....	Water – 18
530.00	Water Meters.....	Water – 20
531.00	Backflow Control.....	Water – 24
532.00	Temporary Water Use-Permit Required.....	Water – 38

SECTION 500 - WATER DISTRIBUTION - INDEX OF DETAILS

500-01	Valve Box Detail
500-02	Standard Blow-Off Installation for 12" & Smaller Pipe
500-02A	Temporary ¾" & 1" Blow-Off Installation for 12" & Smaller Pipe
500-02B	Temporary 2" Blow-Off Installation for 12" & Smaller Pipe
500-03	Water Service Line Reconnects
500-04	Upper Vertical Thrust Block Detail
500-05	Horizontal Thrust Block Detail
500-06	Standard Fire Hydrant Installation Profile
500-07	12" or Smaller Waterline, Lowering Detail for Utility Crossings
500-08	Water Service and Outside Meter Installation (Attached Sidewalk Shown)
500-08A	Water Service and Outside Meter Installation (Detached Sidewalk Shown)
500-08B	Rural Water Service and Outside Meter Installation
500-09	1½" – 2" Domestic Meter in Vault
500-10	Ditch Crossing
500-11	Exothermic Weld Cap Installation
500-12	Joint Bond Installation
500-13	Cathodic Test Station - Type 1
500-14	Cathodic Test Station - Type 2
500-15	Cathodic Test Station - Type 3
500-16	Marker Post
500-17	Fire/Domestic Water Supply Combination Detail ¾" – 2" Multi Family
500-18	¾" – 2" Irrigation Meter in Vault
500-19	¾" – 1" Domestic Meter in Vault

SECTION 600 - PARKS AND FORESTRY

600.00 Regulated Areas and Development ProcessParks - 1
601.00 Concrete Paths, Bridges and Undperpasses.....Parks - 11
602.00 Grading and Fine Grading..... Parks – 20
603.00 Irrigation Parks – 25
604.00 Seeding Parks – 43
605.00 Sodding Parks – 48
606.00 Trees, Plants and GroundcoverParks - 51

SECTION 600 - PARKS AND FORESTRY INDEX OF DETAILS

601.01 Concrete Path Detail
601.02 Flood Gate
603.01 Backflow Preventer, Meter Pit and Downstream Assemblies
603.02 Winterization Assembly
603.03 Flow Meter Assembly
603.04 Master Valve Assembly
603.05 Controller, Satellite and Enclosure
603.06 Remote Control Valve Assembly
603.07 Quick Coupler Assembly
603.08 Drip Remote Control Valve Assembly
603.09 Manual Drain Valve Assembly
603.10 Gate Valve Assembly
603.11 Concrete Thrust Block Detail
603.12 Pop-Up Rotor Sprinkler Assembly
603.13 Pop-Up Spray Sprinkler Assembly
603.14 Flush Cap Assembly
603.15 Drip Detail in Shrub Beds
603.16 Drip in Open Turf Areas
606.01 Tree Planting Detail
606.02 Shrub Planting Detail

SECTION 700 – LONGMONT POWER AND COMMUNICATIONS (LP)

700.00	Minimum Design Criteria	LPC – 1
701.00	Developer Installation of Subsurface Infrastructure	LPC – 6
702.00	LPC Installation of Subsurface Infrastructure	LPC – 10
703.00	LPC Installation of Electrical Apparatus	LPC – 11
704.00	Construction Power	LPC – 11
705.00	Service Lines Sizes and Installation	LPC – 11
706.00	Metering Requirements	LPC – 12

SECTION 700 – LONGMONT POWER & COMMUNICATIONS (LPC) - INDEX OF DETAILS

700-02A	Clearances
700-02B	Clearances
700-03	Sleeve Installation
700-04	Trench Detail
700-05	Equipment Alignment on Trench
700-06	Tracer Wire Installation
700-07A	Cable Handling and Storage Procedures
700-07B	Cable Handling and Storage Procedures
700-08	Cold Shrink Installation
700-09	Transformer, Residential Single Phase Ground Sleeve
700-10	Transformer, Commercial Three Phase Concrete Pad
700-11	Primary Junction Facility Ground Sleeve
700-12	Secondary Junction Facility Ground Sleeve
700-13	Street Light Pole
700-14	Street Light Base
700-15	Service Line Identification
700-16	Metering Single Family
700-17	Metering Phone Line
700-18	Bollard Installation

APPENDIX

Construction Plans Development Review Checklist..... Appendix - 1
Construction Submittal Checklist..... Appendix - 2
Stormwater Management Plan (SWMP) Appendix - 7
Best Management Practices – Inspection Checklist Appendix - 9
General Notes..... Appendix - 10
Stormwater Management Plans General Notes..... Appendix - 12
Power & Communication General Notes..... Appendix - 13
Soils Report Development Review Checklist Appendix - 14
Pavement Design Report Development Review Checklist Appendix - 16
Pavement Design Report Submittal Checklist..... Appendix - 17
Criteria for Traffic Impact Studies..... Appendix - 19
Traffic Impact Study Preparation and Review Process..... Appendix - 20
Traffic Impact Study Requirements Appendix - 21
Impact Mitigation Measures..... Appendix - 29
Electric Service Request Appendix - 30
Public Improvement Plan Submittal for Development Review Appendix - 31
Preconstruction Minute Form Appendix - 32
