

# RATE COMPARISON

Vance Brand Airport offers extremely competitive land lease rates. The FBO, Elite Aviation, manages the public ramp and tie-down fees, and those rates also are extremely competitive.

Note: Tie-down fees have a range depending on the aircraft. Prices shown are based on the low end of each airport's range for single-engine piston aircraft.

As with many airports, the overnight tie-down fee at Vance Brand Airport is waived with a fuel purchase. Not only are Vance Brand's tie-down fees well below the average, the price per square foot for land lease is approximately \$0.03 per square foot less than the average.
